TRANSMITTAL OF MANAGEMENT PLAN FOR RESOLUTION OF THE SAFETY ISSUES  
ASSOCIATED WITH THE STORAGE OF PLUTONIUM - HPM-335-93

Transmitted herein is the July 8, 1993 final (Revision 1) *Management Plan for Resolution of the Safety Issues Associated with the Storage of Plutonium* for your review and comment. This revision contains the latest information associated with the Inspection Plan process and Environmental Assessment associated with Building 707. All major changes are marked with a vertical line on the left margin at the beginning of the paragraph changed.

Comments received after June 25, 1993 will be incorporated into future revisions of the Plan

EG&G will continue the meetings in a "punch list" format to assure that progress is being made relative to the schedules contained with the management plan and to assure that our respective staffs are communicating and resolving the technical and administrative barriers leading to resolution of the Special Nuclear Material storage issue

Questions or comments relative to this plan should be addressed to R D Copp of my staff
